## Certificate schedule

### UNIT OF CERTIFICATION

Definition: Target stock(s) combined with the fishing method/gear and practice (including vessel type/s) pursuing that stock, and any fleets, or groups of vessels, or individual fishing operators that are covered by the MSC fishery certificate. Note that other eligible fishers may also be included in some Units of Assessment but not initially certified (until covered by a certificate sharing arrangement).

Species:	Hoki ( <i>Macruronus novaezelandiae</i> )
Geographical area:	New Zealand HOK1
Method of capture:	Mid-water trawling and bottom trawling
Stock:	New Zealand Hoki, HOK1
Management System:	NZ Quota Management System (Ministry for Primary Industries)
Client Group:	Deepwater Group Limited

Other Eligible Fishers:	Operators who have been fully assessed against the MSC's Principles and Criteria for Sustainable Fishing as part of the UoC; and are not currently part of the client group.

**THE PARTIES, OR CATEGORIES OF PARTIES, THAT ARE ENTITLED TO USE THIS CERTIFICATE TO ENTER FISH FROM THE CERTIFIED FISHERY INTO CERTIFIED CHAINS OF CUSTODY**

The eligible client group members and their vessels can be found at the MSC website, or by contacting Acoura Marine.

Eligible fishers are those operators who have been fully assess against the MSC's Principles and Criteria for Sustainable Fishing as part of the Unit of Certification; and are not currently part of the client group, but may become eligible to join the client group under a certificate sharing arrangement.

Those outside the group comprise fishers targeting the same stock using the same methods/gear and operating under the same management regime as the fishers included in the client group.

In the course of the certification it is possible that these companies/vessels may join the client group. This would be in accordance with the MSC's stated desire to allow fair and equitable access to the certification.
